Congratulations MD F HASAN!

Now, you officially finished the course: *Relational Database Design*! What an accomplishment you just have! I am very proud of you, and I'm grateful for your effort in learning together with your cohort and me.

Now, you can take a well-deserved break, then move forward to the second course in the specialization, [The Structured Query Language \(SQL\)](#), and you'll get to know how to implement and query relational databases!

[Upgrade now to enable the work you have already completed](#)
